

Product: Double Sided Repulpable Splicing Tape

Code: D044

Product Description

A high tack repulpable tissue splicing tape coated both sides with adhesive.

Features

- Low initial tack –provides good initial grab to a variety of paper substrates.
- PH neutral so will not discolor papers (acid free).
- Completely repulpable.
- Exceptional sheer and a high heat resistance.

Applications

- Splicing in the paper industry.
- Suitable for use on a wide range of paper types, coated fine papers and heavy grammage boards.
- Ideally suited to tissue applications – web splicing, core starting and replacing pasting operations.

Technical Data

Liner	Paper release liner – white
Carrier	Repulpable natural fiber tissue
Adhesive	Water re-emulsifiable acrylic copolymer
Film Thickness	N/A
Adhesive Thickness	N/A
Total Thickness Allowance (Variance)	+/- 10%
Application Temperature	10°-35°C
Temperature Resistance	180°C
Sheer Strength	N/A
180° Peel Adhesion (ASTM D 3330)* (Steel)	5N/25mm
Holding Power (ASTM D 3654)*	N/A
Tensile Strength (ASTM D 3759)*	N/A
Elongation (ASTM D 3759)*	45%
Initial Tack (JIS Z0237)*	
*Data represents the minimum value from the results of a series of tests	
Storage Conditions	Cool, dry environment ideally at 21°C and 50% relative humidity – 12 months
